Annual Exams St. John Ambulance Assoc.

McGillivray, International and Coleman Rangers First Aid Teams Entered.

Col. A. E. Snell, director-general of St. John Ambulance Association, held his annual visit to Coleman last week, examining local teams in Dominion and provincial competitions.

McGillivray and International teams were examined in the Coderre Cup competition, a Dominion competition, and also in the provincial competition. Personnel of the teams were: International—A. McCulloch, captain; T. Brennan, J. Simla, J. Janesky and W. Lonsbury; McGillivray—E. Hill, captain; H. Dunlop, Jr.; J. Kilgannon, L. Richards, Jr. and A. A. Fraser.

The Coleman Rangers, a ladies' team, were examined in a provincial competition. Personnel of the team: Irene Brennan, captain; Jessie McLeod, Fred Borden, Betty Garner and Margaret Hogan.

On Friday evening Col. Snell showed first aid pictures and gave a lecture in the high school auditorium, approximately 200 persons being present. He left Saturday evening for Cranbrook.

A first aid talking film was shown by the local branch in the Palace theatre on Wednesday afternoon at 4:30, a large number of children being present.

LOCAL AND GENERAL

Mr. and Mrs. Freeman, of Blairmore, accompanied by Mr. and Mrs. Steeves, of Coleman, motored to town on Sunday. They called on Rev. and Mrs. Partridge.

Mr. L. Hurbut, of Calgary, is now special salesman for Pattinson Hardware Store, "The Pass" dealers for General Electric appliances. He will gladly give all details as to prices and terms.

The wise advertiser uses this "great family journal" because it is the home community newspaper and is eagerly looked for and carefully read. Supreme in creating goodwill and customer confidence, it fills the place that none other can take.

The runway leading into Sam's Service Station will, within the next few days, be reconstructed so as to give more room for cars and trucks drawing up to the gasoline pumps. In its present condition it is too narrow for safe driving.

Show confidence in business by advertising in The Journal—Coleman's community weekly newspaper. On sale at drug stores, Palm Confectionery and delivered by Dine DeMartin, W. Naylor and John Latt. THE REAL PAPER of the town.

East Kootenay Power Plant at the lake was called into service this week owing to damage to the transmission line between Bellevue and Pincher Creek. This plant is now operating, the Calgary Power Co., giving service to that city when emergency requires.

MISCELLANEOUS

Imitation is the sincerest form of flattery.

Frank Aboussay's anniversary sale continues for another week.

J. M. Ruxton excels as a master of ceremonies at a whist drive.

Frank Celli, of Creston, was in town yesterday. Mrs. Celli is at present in New York, her mother being in a serious condition.

Steve Janostak's latest postcard arrived Wednesday from Calcutta, dated May 4. Two weeks from that distant point is "good going."

Mr. Blackburn, the peddler vendor whose motor vehicle aroused interest last year when it stood in Coleman, was here this week on a brief visit from Cardston.

Fast Time in Coleman Pigeon Flight From Calgary

COLEMAN HOMING SOCIETY
Race From Calgary 101 Miles—
May 15th.

To win the open race and nomination pool John Hurk's bird made an exceptional fast flight.

The birds were liberated in ideal weather at 7:50 a.m. Hurk's clocking his first bird at 9:41:13 a.m. flying time of 2 hrs., 21 mins., 13 secs. All other members clocked in over a half hour later.

The result was as follows:

Open Race
1. J. Hurk—9:41:13 a.m.
2. A. Biegan—10:13:58 a.m.
Nomination Pool
1. J. Hurk—9:41:13 a.m.
2. A. Biegan—10:13:58 a.m.
3. T. Corni—10:14:50 a.m.

To explain the open race and the nomination pool the open race is for all birds entered, and the nomination pool is for birds selected by each having a special entry fee to create the nomination pool.

Thus the first bird clocked wins the open race, and if it was entered in the nomination pool it also wins the pool stakes.

Therefore, as will be seen by the race results, Hurk's first bird won the open race and pool, on account of his first bird clocking the pool's bird winning 2nd in open race and 2nd in nomination pool.

Tarcon's bird, not being nominated, won 3rd in open race only.

Combs' bird, 4th in the open race being nominated, won 3rd in nomination pool.

As all races this season will be run in this manner, this explanation is necessary so that those interested and not knowing the procedure may understand.

The prizes for the open race were donated by F. Antrobus, W. Webster and W. Gate.

The next race will be on May 22nd, from Red Deer.

All members to have their birds at the C.P.R. depot at 12 noon on Saturday, May 21st.

Town Council Notes

A regular meeting of the Council was held on Tuesday evening with all members present.

A sign was ordered to be put on the corner of Granby Avenue at Second Street, to direct traffic up First Street.

A request was received from Coleman Crystal Rink committee to have the tracks cancelled, as in past years. The request was granted.

George Roussey's application for old age pension was given approval. The council endorsed the action of the mayor and secretary in this regard.

The works and property committee gave reports on the various culverts and streets needing attention, and they were given power to act on the project in West Coleman.

The request from Mr. Derbyshire to build his garage projecting on the avenue, was tabled until the council inspects the proposed site.

The following accounts were passed for payment:
Sam Malanchuk, \$12.47; John Horbachuk, \$8.86; Coleman Cash Grocery, \$4.60; West End Meat Market, \$46.40; S. Janotak, \$26.40; Henry Zuk, \$28.00; A. Holyk, \$62.50; J. M. Hukstun, \$10.00; Walter Bobbitt, \$39.00; A. E. Knowles, \$20.00; W. Makin, \$4.00; W. Gate, \$14.40; William Antle, \$20.00; The Coleman Journal, \$17.15; Coleman Service Garage, \$50.00; John Salvador, \$10.28; Coleman Light & Water Co., \$20.45; International Coal and Coke Co., \$2.45; Bonita Memorial Home, \$12.00; Women's Compensation Board, \$51.80; McGillivray Creek Co., \$11.60; Provincial Government, \$10.00; George Duffield, \$4.00; King's Printer, \$5.25.

W. S. Purvis Bereaved

Mr. Walter S. Purvis received word this morning of the death of his father in Calgary, and with Mrs. Purvis left for the funeral, which will likely be held on Saturday. He was over 70 years of age, and is survived by his wife, and sons Joe and Tom of Calgary, and Walter.

Demand Disallowance of Vicious, Revengeful Debt Legislation

Savings of Thousands of Thrifty People and Life Insurance Policy Holders May Be Wiped Out By Social Credit Government's Legalized Theft.

Montreal, May 12.—Leading journals in Montreal and Toronto today united in a powerful attack on the Alberta mortgage legislation, with the Montreal Gazette and the Financial Post, Toronto, both demanding federal disallowance of the Aberhart act of June 1.

The Gazette, in an editorial today, charged the Aberhart government with legalizing theft.

"The whole program purports to make lawful what under other conditions would be sheer theft," the Gazette asserted. "Even if the Aberhart Government has failed in the main object for which it was elected, that of applying the Social Credit theory, it might still have retained the respect of Canadians. Unfortunately, it has not been content to acknowledge the futility of its policy and to govern the province in justice and good faith, but has now run amok through a field of radical legislation that is without precedent in any country, civilized or savage."

"Having attempted to exploit the banks, to muzzle the press, and to take the hands of the courts, and having been frustrated in these efforts, it has proceeded to the enactment of laws which are equally, if not more vicious."

Referring to the Securities Tax Act, which levies two per cent on the principal of all mortgages, payable only by the lender, the Gazette pointed out that the penalty for non-payment was 60 per cent yearly. In addition, the mortgage holders were obliged to furnish elaborate particulars regarding all mortgages by June 1st of this year. Failure to make returns entailed a fine of \$10 per day per mortgage—or \$3,650 fine for each.

"What individuals anywhere in the world would lend money to those to whom the money is lent. The intention of the act is to force individuals as well as institutions, said the Globe and Mail financial editor.

"In the aggregate, the people who lend money are as numerous as those to whom the money is lent. The intention of the act is to force individuals as well as institutions, said the Globe and Mail financial editor.

FIRST TO PAY TAXES

Mayor Pettinson thought he would be the first to pay his town taxes for 1938, but on arriving at the town hall found that he had lost by a narrow margin to Postmaster Frank H. Graham. This is a good example for all to follow, as by paying before June 15 taxpayers are granted a ten per cent rebate, which in many instances represents a day's pay. So—pay and save!

The Canadian Legion has opened a temporary office next to The Journal office, where the business of arranging for the carnival on June 11 and 12 will be carried on. It is a convenient spot for the executive to meet.

St. Paul's Church Passes Another Milestone

32nd Anniversary Marked With Inspiring Addresses by Rev. R. McGowan, of Pincher Creek.

Nearly a third of a century has passed since St. Paul's church was founded in Coleman. In those days it was known as the Institutional church, later changed to St. Paul's Presbyterian church, finally becoming the United church.

It was therefore with reminiscent feelings that the older people of the congregation gathered in the church on Sunday, when Rev. Robert McGowan, of Pincher Creek, was the guest speaker. In the absence of Rev. H. J. Peterson, the guest preacher was introduced by Mr. James Fairhurst.

Mrs. Richard Upton, of Bellevue, was the guest soloist at the morning service, Mr. J. Emmerson playing the organ accompaniment. Miss Lorraine Hixon was organist for the morning and evening services. Oliver Brown sang a solo at the evening service.

On Monday evening the Ladies' Aid served their annual supper which was heartily enjoyed by all who attended, and for which the ladies are to be heartily commended.

DEATH OF FORMER COLEMAN FIRE—WORKED HERE FOR SEVERAL YEARS

Honored by Salvation Army Funerals, the deceased was a member of Masonic Order When Here.

MACMILLAN—At the residence of his son, Henry MacMillan, 149 Parker Street, Sarnia, on Monday, May 2, 1938, Donald MacMillan, beloved husband of Emily Lillian Pettit, 20 Haddon Avenue, North, Hamilton, aged 58 years, interment in Woodland cemetery.

Donald MacMillan, who lived here from 1910 and 1915, well-known to earlier residents of "The Pass," died of pneumonia, and his son, Henry, of the Department of Mines and Resources, immigration branch, Sarnia, Ont., sends the following report from the Sarnia Observer:

Many Hamilton friends will profoundly regret the sudden passing yesterday of Donald MacMillan, of 20 Haddon Avenue, at the home of his son, Henry, 149 Parker Street, Sarnia. The deceased, who was 58 years of age, was well known in this city, particularly in Salvation Army circles, belonging to No. 1 Citadel and being for the last ten years a member of the S.A. band. His wife, the former Miss Emily Lillian Pettit, survives him; he has two sons, Henry and Alexander, in Galt; a daughter, Miss Annie, at home; his father, Henry, in Windsor, and two sisters, Mrs. W. Douglas, of Windsor, and Miss Martha MacMillan, also in Windsor. The funeral will be held on Thursday afternoon at 1:30 o'clock from the home, Haddon Avenue, to S.A. Citadel No. 1 for public service. Interment will be made in Woodland cemetery.

Alex. M. Morrison stated that he remembered Mr. MacMillan, who, during one of the strikes here, employed by the town, and helped to erect the stone wall on the roadway west of St. Alban's church.

LOCAL NEWS

Heavy rain caused the delegation of Conservatives to intend going from the Pass towns to Macleod cancelling the trip. Those who intended going were Ed. McKin, of Frank S. G. Bannan, of Blairmore; R. P. Barnes, Wm. Burns and H. T. Halliwell, of Coleman.

It takes a journeyman printer, trained in their craft, to produce good printing. That's why The Journal has a reputation for quality printing. Why use substitutes when real printing by experienced men costs less than that turned out by "bedroom" printers?

Miners Refer Disputed Clause Attorney-Gen.

The Community hall was filled on Sunday afternoon when Robert Livett, president of District 18, U.M.W. of A., and Pat Conroy, organizer, addressed members of Coleman Miners' Association on completing organizing as a local of the U.M.W. of A.

Members of the Coleman Miners' Association pointed out that their constitution, drawn up in 1935, stipulated that a two-thirds majority was required to make any change in the status of their association, or before affiliation with any union could be permitted or authorized.

The U.M.W. of A. contended that provincial or Dominion laws governing the set-up of labor organizations overruled local by-laws. The result of the discussion was that the contentious clauses be referred to the attorney-general of the province, which is Premier Aberhart.

NAZARENE MISSION

Rev. C. H. Mooshian, B.A., in charge; G. Berglund assistant and organist.

Services: Sunday at 11 a.m. evangelistic service at 7:30.

Tuesday evening at 7:30, "Question Box Hour," with the men in charge.

Friday evening at 7:30, Gospel Service, with singing. Duet by Mr. Perry and Mr. Snowdon. Friday will be devoted to a special missionary special address.

Watch the paper for special announcements of special services in the very near future.

GREYHOUND BUS CHANGES

Bus drivers will no longer be billeted at the Grand Union, as under the new time table taking effect tomorrow, their terminal will be Macleod instead of Coleman. The new time table may be obtained on telephoning the Grand Union, Miss Mae Bell being the ticket agent.

On May 24 there will be excursion rates between all points at fare and one-quarter for the round trip.

Severs Diplomatic Connections With Mexican Government

Mexico City, — Owen St. Clair O'Malley, British minister to Mexico City, packed his belongings Sunday, prepared to leave for home following his recall late Saturday in the diplomatic rupture between Great Britain and Mexico.

Britain's action was in response to that taken by the Mexican government in withdrawing Prime Villamil, minister to London, because of Britain's "unfriendly attitude" toward Mexico.

Labor and political organizations lined up behind President Lazaro Cardenas in the matter. The congress of the Revolutionary (government) party, the Confederation of Mexican workers and other labor organizations joined in declaring themselves behind the president and his "Mexico for the Mexicans" program.

The majority bloc in the chamber of deputies described the break with Britain as "absolutely justified" in view of Britain's attitude in sending a sharp note concerning debts. The Revolutionary party said the "meddling Britain attempted was in every sense intolerable." Newspapers declared Britain's "hurry to collect from Mexico was inexplicable." It was Britain's insistence that Mexico pay a past due payment of \$70,962 pesos (about \$8,000) for losses in revolutions from 1910 to 1920 that led to severance of diplomatic relations.

Previously London sent two notes demanding return of British-owned properties taken over by the government when the \$400,000,000 foreign oil industry was expropriated on March 18.

The breach with London accentuated the different positions taken by London and Washington in the oil controversy. First each nation took a strong attitude against seizure of the properties but on March 30 the United States secretary of state, Cordell Hull, formally acknowledged Mexico's right to take the expropriation step provided the owners received indemnity. Britain, on the other hand, in a firm note called the expropriation a "denial of justice" and demanded prompt return of the properties. Mexico rejected the British contentions.

Foreign Minister Eduardo Hay on Friday gave Mr. O'Malley a

cheque for the reparations payment, just before he issued a note announcing the break with Britain.

Mrs. Herridge Dies

Was Wife Of Former Canadian Minister To The United States
New York, — Mrs. W. D. Herridge, wife of the former Canadian minister to the United States and sister of Rt. Hon. R. B. Bennett, former prime minister of Canada, died in a hospital here.

Although Mrs. Herridge, in her late 40s, had been seriously ill for the last several weeks, her death had not been expected.

Mr. Herridge was at her bedside when she died at 7 a.m. Mr. Bennett was preparing to leave Canada for New York at the time.

Mrs. Herridge was the former Mildred Bennett. She was born at Hopewell Cape, N.B., daughter of Henry J. and Henrietta Stiles Bennett.

Her marriage to Mr. Herridge took place in Ottawa where her brother was serving as prime minister of Canada. Soon after her marriage she accompanied her husband to Washington and was one of the United States capital's most popular hostesses during her residence in the ministerial mansion.

Will Soon Be Concluded

Renewal Of Canadian-U.S. Trade Pact Expected Shortly
Seattle, Wash.—Drafting of a reciprocal trade agreement with the United Kingdom and the renewal of the trade pact with Canada should be concluded before June 1, Dr. Henry F. Grady, chairman of the committee for reciprocity information of the United States department of state, said.

He was here to confer with business and industrial leaders. "We can not say in advance of treaty negotiations what will be accomplished," Dr. Grady commented. "But we are hopeful that new opportunities will be given for the advancement of Pacific northwest industries."

He said the department was "fully informed" on the importance of the negotiations to the Pacific northwest lumber industry.

Divorce Bill

Ottawa Has Specific Authority To Legislate On Marriage

Ottawa.—So long as parliament keeps away from matters relating to the solemnization of marriage, it has complete jurisdiction to legislate on marriage and divorce. Rt. Hon. Arthur Meighen argued in the senate. He spoke in the debate on the motion to approve the report of the senate committee on the divorce bill of Senator Lepidum McMeans (Cons. Winnipeg).

He disagreed with Sir Allen Aylesworth (Lab. North York), who contended that in treating of legitimacy, of children, provision for the children of divorced couples, and nullity of marriages, the bill encroached upon civil rights exclusively reserved to jurisdiction of the provinces.

The British North America Act vested the Dominion with specific authority to legislate on marriage. The Conservative senate leader said. It was a proper assumption of the act had been in mind all the elements relating to matrimonial causes which had been embraced by the term throughout the centuries. Such being the case, these elements were included in the word "marriage" in the B.N.A. act as adopted in 1867.

If that were not so, said Mr. Meighen, then the Dominion had no jurisdiction whatever to legislate on anything pertaining to marriage. The Conservative leader's speech wound up the debate and the senate adopted the committee's report. The bill, which seeks to widen the grounds for divorce now stands for third reading.

Great Britain Needs Rain

Vegetable Prices Rise Sharply Owing To Decreased Supply

London.—Great Britain's farmers, most of whom have suffered from serious drought for many weeks, anxiously awaited publication of a ministry of agriculture periodic crop report.

The report was expected to give details of the status of all crops and may affect prices.

Vegetable prices have risen sharply in recent weeks because of decreased supply. Livestock owners have suffered, and the water supply of many municipalities has been affected.

Rains fell in scattered sections, but over most of the British Isles dry weather continued. A heavy rainfall ended a 72-day dry spell in Newcastle and Durham. There were light showers in some parts of Scotland.

Potatoes were selling at from 48 (\$40) to 110 (\$50) a ton wholesale, as compared with 48 to 58 three weeks ago. Cabbages and carrots climbed in price even more sharply.

England's age-old "dew ponds," shallow hillside basins which replenish themselves each night, have been some help during the dry spell, which they have defied. Cattle and sheep drink from the ponds.

Protest Bombing

Charge Deliberate Bombing Of British Ships In Valencia

London.—Great Britain has protested to General Franco over the alleged deliberate air bombing of British ships in Valencia harbor.

Instructions have been sent to Sir Robert Hodgson, British agent at Burgos, Richard Butler, under-secretary for foreign affairs, told the House of Commons, to address a strong protest to the Burgos authorities against what appears to be the British government to be an entirely unwarrantable proceeding and to request an investigation of the incident.

Dr. Joseph Sirolis acted as chairman as Hon. N. W. Rowell is confined to his Toronto home with an indisposition.

If Canada is to prosper and progress, it must become a national entity, as was intended at confederation, instead of degenerating into "nine selfish entities" as at present, the Montreal board of trade asserted.

The Montreal board directly condemned what it saw as the growing tendency of provinces to become so immersed in their own problems they forgot the welfare of the nation and "the rights of citizens as individuals."

The board held a re-adjustment of Dominion-provincial financial relations essential. It considered a single jurisdiction and uniformity of administration of some social services would be "in the best interests of efficiency and sound public finance," even though it involved a constitutional redistribution of powers between Dominion and provinces.

If that were impossible, it contended a re-adjustment of taxing powers would be necessary to make them conform to the responsibilities of the respective governments.

Among its other specific recommendations, the board attacked the practice of capitalizing relief expenditures, urged standardized public accounts throughout the country, elimination of tax duplication by reciprocal agreement between the provinces, greater stress on income taxes and less on sales taxes.

NEW PORTRAIT

This portrait of King George shows him wearing the uniform of a field marshal, and was taken recently in connection with the completion of the first year of his reign.

British Statesmen Confer With Henlein On Minority Question

London.—Konrad Henlein, leader of 3,500,000 Germans, aired his grievances before recognized British opponents of Germany's eastward thrust.

He lunched with Winston Churchill, former cabinet minister and Conservative critic of the British government, and Sir Archibald Sinclair, leader of the Liberal opposition in the House of Commons. He conferred with Harold Nicolson, National Labor, and six other members of parliament and visited Sir Robert Vansittart, principal diplomatic adviser of the government.

(A dispatch from Praha carried an unconfirmed report Henlein conferred with Chancellor Hitler of Germany before coming to London. Havas News Agency reported from London political observers believed the visit was linked with Hitler's determination to break the mutual aid pact between Czechoslovakia and Soviet Russia. Henlein, Havas added, was believed to be sounding out opinion on possibility of a break in the mutual aid pact in exchange for keeping his minority group within the framework of Czechoslovakia.)

During the day the Czechoslovak minister, Jan Masaryk, visited the foreign office, apparently to ask details in regard to Henlein's visit. It is understood he saw Sir Robert Vansittart.

Informed sources said Churchill and the others found Henlein in a moderate mood as they pointed out the gravity of his program for the Germans he leads in Czechoslovakia. In a speech April 25 at Karlovy Vary (Carlsbad) before his Sudeten German party, Henlein demanded autonomy for predominantly German districts in Czechoslovakia, revision of that nation's foreign policy and other concessions.

Mr. Churchill said "mutual friends thought it was a good idea for us to talk about the situation in central Europe since Henlein was coming to England. It (the talk) was strictly private."

It was believed certain that Mr. Churchill, a stalwart friend of France, gave his guest a cross-section of opposition opinion, particularly on the demand for revision of Czechoslovakia's foreign policy, including her alliance with France and Soviet Russia.

Strikes During April

Involved 2,874 Workers And Caused Serious Time Loss

Ottawa.—Canada's 15 strikes and lockouts during April caused time loss of 17,548 man-working days and involved 2,874 workers compared to 19 disputes involving 2,406 employees in the previous month, the department of labor announced. In April, 37 disputes involved 12,771 workers.

More than 80 per cent. of the time loss in April was due to strikes of taxicab drivers at Toronto, steamship workers on the Great Lakes and the St. Lawrence, and sawmill workers at Fort Frances, Ont.

Model Nurseries Schools

Canberra, Australia.—Child development centres and model nursery schools costing about \$20,000 each are to be established in the seven Australian capitals. The nurseries are intended to be research and educational centres. Children between two and six will be trained under medical supervision and their diet studied by experts.

Rock Slide In Mine

Gigantic Cave-In At Kirkland Lake Traps Miners

Kirkland Lake, Ont.—One man was injured and two other miners were trapped by falling rock when a rock burst occurred at the 2,800-foot level of the Lake Shore Gold Mines here in the history of the mine, shook the town.

Peter West and a man named Bolan were trapped when the rock burst caused a gigantic cave-in deep in the shaft. A man named Fancel was slightly injured but was brought out from the scene of the accident without difficulty. They were said to be in no danger unless another slide occurred.

Japanese Envoy Sails

London.—Baron Shu Tomii, newly appointed Japanese minister to Canada, sailed for the Dominion aboard the Norway when he assumed his post at Ottawa. He was accompanied by Baroness Tomii and his daughter. The baron held the post of first secretary in the Japanese embassy in London.

Canada As Valuable Source Of Supply For British Airplanes

After the vote 20 government supporters signed a motion asking appointment of an independent committee to investigate air defence. Both Liberal and Labor parties tabled motions demanding an investigation.

Lord Swinton, chancellor of the Duchy of Lancaster and air ministry spokesman in the House of Commons, told the body the government was giving consideration to the possibilities of Canada's "war potentialities" which was not conceivable, he said, that Britain in certain emergencies should not receive "the fullest co-operation from other governments in the empire," and declared: "Such (air) forces as are being formed at the present time in the dominions... in a short time will be very efficient."

Both spokesmen said the aeroplane output of the present financial year would increase more than 50 per cent, and next year would double this year's production.

Lord Swinton said air parity with other countries was a bad term. He suggested Britain should rather have an air force "wholly adequate for our necessities." Answering demands for a ministry of supply he said that if ever the government were satisfied this would be useful they should not hesitate to have one.

The air secretary declared the aviation industry was employing more than 90,000 men early in 1938, compared with 30,000 in 1935. Firms which could produce aircraft required for the defence program had received 100 additional orders, which will occupy the maximum capacity of the next two years.

In addition to all-metal planes for the regular service, the Royal Air Force was using training machines of mixed wood and metal construction—a type which might form a valuable auxiliary supply.

Quebec Does Not Accept Authority Of Federal Government

Quebec.—The Quebec government does not recognize the authority of the federal government to grant to any commission the power to investigate provincial government finances, the Rowell commission was informed in the most "emphatic manner" as it opened its Quebec sittings.

"The federal government is no more entitled to examine the financial position of the provinces than the provinces would be to investigate the financial position of the federal government," said Emery Beaulieu, counsel to the provincial government.

"To recognize the jurisdiction of your commission would be an acknowledgment that there exists in favor of the federal government a supremacy over the provincial governments. Notwithstanding its deep respect for the members of your commission, this government feels that by so doing it would fail in its duty."

On behalf of the Quebec government Mr. Beaulieu endorsed the stand taken by Ontario's Premier Mitchell Hepburn before the commission 10 days ago opposing any further centralization of governmental powers.

"In the opinion of this province, confederation was a compact voluntarily entered into and it cannot be modified except with the consent of all parties," he contended. "This province intends to fulfill all its obligations thereunder and it expects that others will do the same."

Quebec held that the federal government had never completely fulfilled its obligations regarding provincial subsidies. It felt a readjustment was in order, "taking into account the population of the various provinces, the present needs of each province and also the sacrifices made in the past by some of them with a view to developing the country."

"The honorable prime minister for the province of Ontario has clearly demonstrated before your commission that if some provinces have been prejudicially affected by the confederation, it is not the western provinces. For the additional reason, the government of this province wishes to thank him publicly," Mr. Beaulieu said.

Dr. Joseph Sirolis acted as chairman as Hon. N. W. Rowell is confined to his Toronto home with an indisposition.

If Canada is to prosper and progress, it must become a national entity, as was intended at confederation, instead of degenerating into "nine selfish entities" as at present, the Montreal board of trade asserted.

The Montreal board directly condemned what it saw as the growing tendency of provinces to become so immersed in their own problems they forgot the welfare of the nation and "the rights of citizens as individuals."

The board held a re-adjustment of Dominion-provincial financial relations essential. It considered a single jurisdiction and uniformity of administration of some social services would be "in the best interests of efficiency and sound public finance," even though it involved a constitutional redistribution of powers between Dominion and provinces.

If that were impossible, it contended a re-adjustment of taxing powers would be necessary to make them conform to the responsibilities of the respective governments.

Among its other specific recommendations, the board attacked the practice of capitalizing relief expenditures, urged standardized public accounts throughout the country, elimination of tax duplication by reciprocal agreement between the provinces, greater stress on income taxes and less on sales taxes.

HITLER STRESSES COLONY NEEDS

While cheering thousands gave voice to their enthusiasm as Hitler and Mussolini rode through Rome, above, Hitler gave voice to emphatic demands for restoration of colonies taken from Germany after the war.

NOTES AND COMMENTS

THE GREATEST hypocrisy of the age is seen in Aberhart's actions, who, appealing to the selfish and religious emotions of thousands, tries to wreck the Canadian constitution and tells Ottawa to keep its hands off the west. Surely it is time for the minority to demand protection against the ruthlessness of a man who appears devoid of a decent conscience and whose hypnotized followers swallow his "bunk" without questioning. They are surely being led to the morass of self destruction, while the leader and his cohorts enjoy increased incomes and do nothing to implement the extravagant promises of 1935. The attack on those opposed to them is merely to draw the unthinking people's attention from their own miserable failures and their downright selfishness.

THE LEGISLATION applying to debts, mortgages and other measures passed by the Aberhart government legalizes theft in a most savage, revengeful and barbarian manner. It aims at destroying the savings of working people who through life insurance have tried to provide against death or old age. If you are a holder of a life insurance policy, just think what it means to you. Those who never have tried to carry insurance, who have never had the good sense to try and save in order to invest, but for whom work has been provided through capital supplied by others, will applaud the mad-dog legislation, but if it is allowed by the Federal government, it will surely destroy not only credit, but drive

what capital is left out of Alberta so that greater unemployment will surely follow.

WHILE Crows Nest mining interests strive to secure wider markets in Ontario for Alberta coal, the Toronto retail coal dealers petition the Federal government to take off the duty of 50c per ton on American coal entering Canada. Where is our much talked-of national fuel policy?

IT HAS remained for the Social Credit Government of Alberta, under the leadership of William Aberhart, to promulgate a series of enactments which, if allowed to pass into operative law, will constitute the most disgraceful instruments of political vengeance this Dominion has ever known. Indeed, they have no parallel in our history. Aberhart's legislation undermines the security upon which thousands of life insurance policies held by people outside Alberta are based. — Montreal Star.

A DISGUISED report concerning the highway is that there will be no graveling or surfacing done on the highway west of Pincher and through "The Pass." A hotel proprietor in one of the towns through which the highway passes stated he was informed by an official of the highways department that the government wouldn't spend any money on this portion of the highway this season. This is in line with other promises made by our provincial government. Take it and like it, all ye who voted for Social Credit.

MAKING CANADA

A BETTER PLACE IN WHICH TO LIVE AND WORK
A Series of Letters from Distinguished Canadians on Vital Problems Affecting the Future Welfare of Canada
Specially Written for Canadian Weekly Newspapers Association

A. A. McINTOSH

"What can Weekly Newspapers do to make Canada a better place in which to live and work?" The question correctly implies a special sphere of influence; for the weekly collectively goes into the homes and is close to the hearts of hundreds of thousands of people where the basic factors of a congenial existence should be found.

If "to be honest, to be kind, to earn a little and to spend a little less, to make upon the whole a family happier for his presence," if this is the test of a man's life and work as Stevenson says, making Canada a better place depends upon the character of its citizens.

The weekly has an opportunity through its community service to keep alive the spark of human sympathy and interest, antidotes for greed and repression which are responsible for so much despair. Church, school and home are within the range of its interpretation. A large proportion of its readers has the wholesome privilege of living close to nature, man's inspiration and model. Can the weeklies do more to cultivate an understanding of these advantages? Canada is a good place in which to

live because it is not yet overwhelmed by individual and collective barbarities. Perhaps more than any other class of publications the weeklies can strengthen the ideals for human betterment by keeping the virtues and their means of expression in the foreground. The audience to which they appeal, promoting the finer instincts, can continue with the aid of press leadership to be the nation's defense against the vices in high and low places.

If sincerity in human relationships is the basis of happy citizenship, willingness to let live accompanies the right to work and to assert individuality with self-reliance. Promotion of such ideals may not be a distinctive prerogative of the weekly press but its field is responsive. Respect for individual capacities is being endangered by over-regimentation. Canada would be a better place in which to live if the tendency to centralize were reversed, the smaller communities provided with a greater share of industrial activity, enabling more people to enjoy the neighborly intercourse which seems to be denied to a great extent in the impersonal atmosphere of the more congested area.

A. A. McINTOSH,
Editor-in-Chief,
The Globe and Mail,
Toronto, March 22, 1938.

Demand Disallowance

(Continued from Page 1)
The Financial Post branded the Aberhart acts "the most monstrous outburst of private property and contract that has yet been attempted in Canada." They threw aside all compromise and reason in matters of debt and provided, in effect, "a preposterous debt-cancellation scheme," the Post asserted.

"Approach of June 1st brings to a head the crisis that has been developing rapidly between the Alberta government and all investors who have loaned money in that province. On that date, the new Alberta Securities Tax becomes payable unless the Fed-

eral government takes steps meanwhile to disallow it. This act is one of a series of statutes passed last month by the Legislature and which seeks to destroy investments in the province."

It had been apparent for some time that Social Credit and \$25 a month dividend were at best "a disguise for repudiation and debt cancellation on a scale which would free Albertans of all debts," declared the Financial Post, "these latest attacks on debt morality go so far beyond reason and equity as to indicate a clear case for the need of federal disallowance," urged the Post. "Such action, to be effective, should be immediate. It should be taken without any hesitation as to possible political consequences in Saskatchewan."

"Such action would constitute no rebutt to the principle of debt adjustment already worked out in a spirit of generous compromise in Manitoba and Saskatchewan. It is action demanded by public conscience against methods of outlawry and repudiation which cannot with impunity be countenanced in this country," the Post stated.

Which Is More Important— FOOD? OR CLOTHING?

IF THE WEST stopped sending food to the East there would be a great outcry. People in the cities and towns beyond the Lakehead rely on the Prairies for much of their provender. They like things made from Saskatchewan wheat and they give prizes to Manitoba butter. They boast about Alberta beef. They stand next to the United Kingdom as buyers of Prairie wheat. They annually buy nearly 25 million pounds of Western butter. They take a quarter of a million head of cattle, 28,000 calves, 46,000 hogs and 120,000 sheep and lambs.

FOOD IS A NECESSITY. And the West produces, among many other things, very satisfactory food.

DOMINION TEXTILE COMPANY produces clothing material, which is also a necessity. We like to think our materials for shirts, underwear and dresses are in their own way just about as important as the carloads of Western food that seven thousand Dominion Textile Company workers in six Quebec towns annually buy with their five million dollars in wages.

SALE OF LANDS

TOWN OF COLEMAN

Notice is hereby given, under the provisions of the Tax Recovery Act, 1929, the Town of Coleman will offer for sale, by public auction, on Friday, the 10th day of June, 1938, at 10 o'clock in the forenoon, at the Town Hall in Coleman, Alberta, the following lands:

Lot	Block	Plan
3	2	881 DK
4	11	820 L

Each parcel will be offered for sale subject to the approval of the Minister of Municipal Affairs, and subject to a reserve bid and to the reservations contained in the existing certificates of title.

Terms, cash.
Redemption may be effected by payment of all arrears of taxes and costs, at any time prior to the sale.

Dated at Coleman, Alberta, this 22nd day of April, 1938.
JAMES FORD,
Secretary-Treasurer.

Albert F. Short attended the annual convention of the Western Canada Fuel Association in Lethbridge.

Rebekah Lodge Welcomes Grand Lodge President

Mrs. Fox of Crossfield, president of the provincial Rebekah Assembly, made her official visit to Victoria Lodge on Tuesday evening, and was welcomed by about 60 members, many visitors coming from Pass towns from Michel to Bellevue. On behalf of the gathering Sister Dorothy Colgrove presented the president with a handsome picture of Crow's Nest mountain, which was accepted in a graceful little speech. The evening concluded with the serving of refreshments and a social hour.

Mrs. Fox was the guest of Mrs. Russell Vincent during her stay here.

Mrs. T. Murphy and children, of Kimberley, spent last week end in Coleman, guests of Mr. and Mrs. S. B. Ryan.

Local News

After an illness of eleven weeks, Mrs. William Milley is steadily improving.

Miss Nettie Gillespie received a hurried call to Michel on Saturday evening where she was given a private nursing case.

"Fortune has opened the Gate; enter without fear." This is the translation of a Latin inscription to be placed over the portal to International mine, which to say the least, is most appropriate. It will be cast in the cement work at the entrance where the men enter the mine.

In honor of Mrs. Cornett, prior to her leaving to spend several months in Vancouver, the Ladies Guild of St. Alban's church met at the home of Mrs. H. Gate, for a social evening on Friday. Bridge was played, the prize-winners being Mrs. Cornett and Mrs. Clifford. One table of whist was played at which the prize was won by Mrs. S. Penney. As a token of goodwill a pocket-book was presented to Mrs. Cornett.

Remember that the date set for inspection of premises following the spring clean-up is Saturday, May 21. Make it a clean town.

Remember that Saturday, May 28, from 3 to 6 p.m., is the date of the tea at Mrs. Halliwell's, in aid of St. Alban's church. It is sponsored by the Ladies Guild.

Bill Knight, centre forward of the local football eleven, played a starring role at Lethbridge on Monday evening when he scored both Lethbridge goals against the touring Corinthians, the latter team winning 4-2. Bill scored in each half. Local fans attending state the tourists failed to show class.

Carelessness and foolhardiness is the cause of most car accidents. On Sunday two instances were noticed in a short stretch of territory. One woman driving a car at a furious speed past a stalled car where men were working on it, and another car driven by a young fellow with several passengers at 70 miles an hour. No wonder people are killed or maimed.

Among those attending the football game at Lethbridge on Monday evening between Corinthians and Lethbridge All Stars were Mr. and Mrs. D. Nevey, J. Balloch, A. Chalmers, A. Walker, and J. Walker.

A cement floor in the fire hall lessens the fire hazard and looks much more suitable. The interior of the whole building looks brighter than ever, and the work was done under the foremanship of John Nikituk.

Ross Campbell of Moose Jaw and Miss Helen Campbell of Ottawa are visiting their brother, Dr. R. H. Campbell, and Mrs. Campbell. The latter have recently moved into their residence on Mayfair avenue.

A wedding of interest took place on Saturday afternoon when Helen Mahovitch, daughter of Mr. J. Mahovitch, of West Coleman, became the bride of James Lloyd of Blairmore, and son of Mr. Tom Lloyd of Coleman. Rev. Fr. Dunbar conducted the wedding ceremony. Attendees were Miss Mary Mahovitch, sister of the bride, and Mr. Alrik Tiberg of Blairmore.

Mart Kenny's orchestra attracted over 200 to the dance last Friday evening in the community hall. This fine band under the leadership of probably the youngest orchestra conductor in Canada were warmly welcomed, and everybody enjoyed the evening. On Friday afternoon most of the party were shown through a section of International mine. Miss Georgia Dey being one of the party. Several photographs were taken by the group. Officials accompanying them through the mine were Superintendent McIntyre, Pitt Boss Alan Brown, and Firebosses Elias Jones and W. Goodwin. The visitors expressed appreciation for the courtesy of the mine officials.

DON'T OVER-RATE YOUR BANKER

He cannot perform Miracles

★ ★

There would be more banks than grocery stores all over Canada if banks could perform the miracle of "creating" the means of payment out of nothing.

It is easy to confuse these two things:

- (a) The business of commercial banking, and
- (b) Control of a nation's monetary system.

Commercial banking has to do with the safe-keeping and lending of money and credit.

Control of a monetary system is a matter of national, governmental policy.

Chartered banks finance production and commerce.

Monetary policy in any country is a matter for the national government itself, either directly, or through a central bank.

The Dominion Parliament established Canada's central bank in 1934 — the Bank of Canada. Its purpose was declared by Parliament in the very first paragraph of the Act of Incorporation, as follows:

"To regulate credit and currency in the best interests of the economic life of the nation, to control and protect the external value of the national monetary unit and to mitigate by its influence fluctuations in the general level of production, trade, prices and employment so far as may be possible within the scope of monetary action, and generally to promote the economic and financial welfare of the Dominion."

It is for governments alone to determine a nation's monetary policy. Differing conditions of debt and trade may make what is wise for one country unwise for another.

Printing "tickets" — as currency has been called in some sections — entirely out of step with production would make everything you buy cost you more. A Canadian woman living in Germany during that country's inflation in 1923 had to pay 65,000,000 marks for an overcoat, and later 1,000,000 marks for a postage stamp!

The business of commercial banking is something to be considered by itself, apart from central banking.

A commercial bank takes deposits. There are two kinds of them. For convenience, call them "savings" and "current." Say you are a workman, or a farmer. After you've paid your living costs out of your wage, or out of the proceeds of your crop, you have some dollars left over. Because you do not want to spend them at once you deposit them in a savings account.

That is a savings deposit. As distinguished from this is the "current" account. Say you are a merchant. You have expenses to meet day by day and therefore always carry a balance in an account against which you issue cheques for your business needs.

That is a current account. Let us say you have \$100 in that account and you need \$10,000 to meet some bills. You borrow it from the bank. You give the manager your note and he places \$1,000 to your credit as a deposit in your

current account. Immediately your balance goes up to \$1,100 — \$1,000 of it being derived directly from a loan.

It is unlike a savings deposit in this respect: You intend to spend it at once. You immediately issue cheques against it. You borrowed the money for business purposes, prepared to pay interest because the transaction was a profitable one to you. Soon most of the thousand has been paid out.

For most of the rest of the term of the loan your deposit is at its lowest. Then, before your note is due, you gather money to repay. Up goes your deposit to its peak again.

Then you repay. Your deposit abruptly drops back to say your original \$100—plus the profit you have made, by the use of the borrowed money.

No matter whether bank deposits are savings or current, your bank must keep on hand cash reserves adequate to meet any demands from day to day.

When its loans are increased, not only is more cash paid out—as was the case with your \$1,000 loan; but your bank's cash reserves also become lower in proportion to total deposits.

A bank must not unduly expand its lending operations, for then its cash will fall below the proportion which experience has shown to be necessary to meet the day-to-day demands of depositors. This very fact serves as an automatic check against excessive lending.

Your bank cannot know just when you will walk in to withdraw your deposit—but it must be ready to pay you, in full, in cash, when you do turn up.

THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

WORLD HAPPENINGS
BRIEFLY TOLD

J. Gabus, Swiss journalist and author, has gone to Churchill on a one-man expedition to study Canadian Indians and Eskimos.

Many steepleshares in the north of England were cancelled in April owing to hard ground. Track-watering was resorted to at Doncaster.

Alfred Duff Cooper, first lord of the admiralty, has invited 35 Canadian school boys under 19 to visit battleships and cruisers of the home fleet during the summer manoeuvres.

The British government announced in the House of Commons it was considering establishment of an air service across the Pacific ocean from Canada to New Zealand.

Dr. Harold J. Rose, coal researcher, declares the total energy released by Niagara Falls in 1932 could be matched by the burning of eight carloads of anthracite coal.

Training carried on in England to deal with various poison gas emergencies is "interesting but terrifying," said Mrs. E. B. Jost, of the Montreal St. John Ambulance Brigade, after taking the course.

Loans under the Home Improvement Plan numbered 37,985 and amounted to \$14,849,134 at April 30 last. Hon. Charles Dunning, minister of finance, announced. There was an increase of 1,792 loans with a value of \$662,138 in April.

United States shipments of war materials to China and Japan exceeded \$10,000,000 in the five months ended April 30; 52 per cent. went to China and the rest to Japan, state department records show. The rate was in excess of last year.

The Royal Canadian Mounted Police is becoming a scientific organization, but friends of one applicant want to call it a silly outfit. Bob Lindsay of Hamilton 20, six feet five inches in height and weighing 225 pounds, tried to join the force and was told he was "too big".

Sea Encroaching On Britain

Process Seems To Be Gradual And No Alarm Felt

There is a rumor in Britain that the sea is encroaching on the land every five years. Neptune is an obstinate old fellow, as Canute found out, but it is unlikely that Britannia will be much alarmed at his new threat, nor imagine that when she was long defended against the sea, the world she must now yield to the main. She may give Neptune his inch, but he would be foolish to take it as a knell or her hopes for the future. Besides which, it is unthinkable that he really intends to wait the rules of the gentlemen's agreements by which it is understood that she rules the waves.

Nevertheless, apart from any far-reaching and sinister design, he has, like the rest of his peers, his capricious fits; and if we may judge from the recent inundations on the Norfolk coast, Campbell was a singularly unwise counsellor, when he remarked, "Britannia needs no bulwarks." The local Catchment Board is definitely post-Canute in its theories, and contemplates spending between a quarter and a half million pounds on the defense of a twelve-mile stretch of her shore.—Christian Science Monitor.

Clinical Discovery

Reported Use Of Human Skin To Cure Diseased Tissues

A Russian professor reported discovery of a process in which the skin of a dead person could be used with curative effect on diseased tissues of the living.

Professor Filatov, telling of his work in the British Medical Journal, The Lancet, said he treated lupus—a skin disease—with the new methods with results "surpassing all my hopes."

He said he removed an ulcer and covered the wound with skin taken from a corpse. Improvement was noted in two days and the wound eventually healed. His report said the skin of a dead person could be preserved at least four months.

Churches In Russia

Members Increased By 837,404 Last Year States Report

It has been reported that Russia closed 612 churches during 1937. A brother of the Russian Minister of War has renounced war and declared that he will become a Christian minister of the Gospel. The War Minister promptly declared that he would renounce his kinship with his brother. Evidently he recognizes the inconsistency of war and Christianity. It is said that the Christian Churches in Russia gained 837,404 members last year.—The New Outlook.

Should Take Eden's Advice

Admirers Of Former Foreign Secretary Have Chosen To Show Loyalty

Anthony Eden, says the Toronto Evening Telegram, has struck the right note in his appeal to the British people for national unity and in his warning that they are facing not a passing crisis but a condition that may determine whether freedom or tyranny shall prevail. The dictator states, as he points out, have realized achievements that are stupendous and terrifying; their rules have succeeded in awakening passionate fervor for their aims and ambitions, and democratic nations must make a comparable effort if liberty is not to be swept aside. "Party warfare for its own sake should have no place in the scheme of things to-day," he says.

Mr. Eden has had many admirers both during his term in office and since his resignation. None question his devotion to the ideals of democracy and many, even among those who were his bitter critics, contend that his policy is better worth taking than that of any other in public. His following is large and his influence great. If he continues to use that influence for the promotion of national unity and the discouraging of petty party politics, he will serve Britain well even as a private member. If those who have been acclaiming him will take his advice to heart, his achievement may be greater than it could ever have been in the Foreign Office.

Only Two Names

People Are "Joe" Or "Chief" To Philippine Service Men

According to the Philippine Magazine all sailors, soldiers, and marines are known to the hangers on at Legaspi landing and other places, by the names of "Joe" or "Chief." It's "Taxi, Joe," or "Haircut, Joe," when the time he goes ashore at night until he piles into the liberty boat at dawn, stealing himself to go back to work again no matter how much of a hangover he may have.

If he is in civilian clothes, he is "Chief." (Only chief petty officers are supposed to wear civilian clothes while on liberty.) By extension, most Americans who have business (or pleasure) in Manila or port area are known "Chief" or "Joe."

I have heard sweet old lady tourists and dignified captains of industry so addressed by respectful shoe shine boys. "Shine, Joe?" pipes the urchin, solicitously pointing to the old lady's shoes.

Gardening

In selecting a list of annual flowers, attention should be paid of course to time of blooming and color. Height should also be noted as a medium sized plant in a window box or bushy stocks or tall cosmos. But these are only elemental points which every gardener of a few years' experience notes automatically. There are other and finer distinctions. Certain shades blend well together and often a whole bed will be selected with this blending in mind. Of course, for this sort of thing, all the plants must bloom during the same period. Fragrance should be taken into account, as there are some spicy things like Evening Scented Stock, Nicotiana, Mignonette, Sweet Sultan and Verbena, which while rather plain as plants, fill the whole garden with a delightful incense, more especially in the evening. In shaded quarters, Tuberoses, Begonias, Pansies and wild flowers will do well. In fact, they prefer this location to any other. In partial shade, Gladioli, Anemone, Larkspur, Lupine, Nicotiana, Phlox and Verbena should be grown. On poor soil, Portulaca is a favorite, as well as Alyssum, Sweet-scented Stocks, Linum, Calceolarias, Calliope, Sunflowers, Schizanthus, Impatiens, Marigolds, Petunias and many others. They will also successfully resist dry weather. Practically any of these flowers may well be planted successfully.

Thinning of both flowers and vegetables is most important after the plants are up an inch or so. With flowers a good rule is to have half as much space between the plants as will be high. This will be a foot between ordinary marigolds, petunias and asters, two to three feet between cosmos and dahlias, but only an inch or so separating tiny alyssum, lobelia and other edging plants. Well spaced flowers will be more sturdy and thus resist heavy wind and rain. Even the smallest vegetables such as lettuce and radishes must be thinned too. An inch or so will be sufficient and that is also all the room that will be needed for carrots and beets, because when these things have developed roots an inch thick and two or three long, every other plant should be removed and used, and this proceeding followed until the whole row is used up.

It is not too late in most parts of Canada to order and plant perennial flowers and even shrubs and vines. Often towards the end of the season, prices are lower and while the selection is not as wide as earlier there should be a good choice.

An unwritten rule of the Japanese Army is that an officer must kill himself rather than be held captive by the enemy. 2255

Too Late For Thousands

British Medical Research Council Makes Statement About Tonsil Operation

The Medical Research Council of Great Britain is a strictly professional, properly conservative, thoroughly cautious and quite unemotional kind of body. It deals, for the most part and in an indubitably dignified manner, with cold scientific facts.

Old Hippocrates, the Father of Medicine, must have done at least a hand-spring in his Grecian gear, therefore, when, that eminent organization issued a report announcing that it "heavily doubts" whether the majority of tonsil operations is any more than a "routine prophylactic ritual for no particular reason and with no particular result."

The public, of course, will be well advised to note that phrase "the majority of." Because sometimes removal of tonsils is unquestionably indicated and serious harm may result if they are left in.

But, for the rest, just think of the shock it will be to thousands and thousands of people, in Great Britain and all over the world, to realize that they have had their tonsils snipped—at a cost ranging from so much up—when maybe they could have kept both the tonsils and the fee.

Time was when a sovereign remedy for all the ills wherewith human kind is plagued was to pull out all a fellow's teeth. That technique has subsided almost to the vanishing point within recent years.

And now this latest Medical Research Council report gives rise to other alarming possibilities. Perhaps—who knows?—the appendix may be next on the list. One should not be too hasty to think that would be the result if the savants were to decide that a majority of all the appendectomies of the last couple of decades had been in the nature of a "routine prophylactic ritual." If this sort of thing goes on, it soon won't be safe to talk about one's operation at all.—Brantford Expositor.

Paper From Straw

Advocates Producing Newspaper From Straw On Western Farms

Use of straw to produce newspaper was advocated at Saskatoon by A. J. Roden, president of the Canadian Jewelers' Association, when speaking to a local group of jewelers. Mr. Roden said: "The time has come when the west, from a national standpoint, has got to look at the forests of Canada by producing newspaper, to be made from the straw that is burned each year on the farms."

Mr. Roden continued: "Science is so far advanced that it is possible to commercially and satisfactorily produce newspaper from straw. O. H. Moore, outstanding eastern Canadian paper engineer, has produced paper from this source in Trenton, Ont."

Thousand-Ton Dome

The huge 1,000-ton helmet that will safeguard the 200-inch telescope of the California Institute of Technology has been completed on Palomar mountain, Captain Clyde B. McDowell, supervising engineer of the project, said the dome of the new observatory is 14 stories high and almost a city block in circumference.

Uncle Sam once granted a patent on a cemetery monument of tight glass in which the funeral flowers could be preserved.

An educated person is one who can name the quint, the six delicious flavors and the seven dwarfs.

FLATTERING CAPELET-FROCK

By Anne Adams

Revel in the thought that now you can look smarter, younger, more elegant? How? The answer is easy—simply order Pattern 4807, and make up this delightful style quickly and easily at home! This charming Anne Adams model will prove to you that you don't have to be an experienced seamstress to turn out becoming additions to your wardrobe in a short time. Can't you envision yourself in this flattering style, its graceful lines set off by colorful flowered velvet, or a dainty striped shawl? You'll love the flattery of its full capelet, trim panel, and feminine little bow. Pattern 4807 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 4 1/2 yards 39 inch fabric. Illustrated step-by-step sewing instructions are included. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly: Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Highest Mill Building

Will Shortly Be In Operation At Newcastle-On-Tyne

Began about two years ago, the great four mill for Messrs. Spillers Ltd., at Newcastle-on-Tyne, the highest mill building in the world, will shortly be in operation.

The silos are designed to store over 150,000 quarters of grain, and ships' cargoes can be discharged into them at the rate of 150 tons an hour. The four mill and provender mill are situated above the warehouse, so that manufactured goods can be placed in store by force of gravity only.—Industrial Britain.

Hugs Sea Shell

A sea shell large enough for a baby's bathtub has just been presented to the Australian museum. It weighs 450 pounds, is 3 feet 2 inches long and 2 feet 1/2 inch wide. It was found on a reef off Gilbert Island.

The most overworked word is "very." Try leaving it out and see how much more effective the sentence sounds.

The piston displacement of a motorcycle is only 21.35 cubic inches.

SUNDAY SCHOOL LESSON

MAY 22

SERVING THROUGH CHRISTIAN CITIZENSHIP

Golden text: Thou shalt love thy neighbor as thyself. Mark 12:31. Lesson: Mark 12:13-17, 28-34. Devotional reading: Romans 13:1-7.

Explanations And Comments

A Sincere Question in Regard to the Greatest Commandment, Mark 12:28-34. It would seem from Jesus' commendation in verse 34 that the scribe who next questioned Jesus was an honest inquirer. He had been listening to questions and answers and knew that Jesus had answered well. "What commandment is the first of all?" was his question. Jesus answered by quoting from Deuteronomy: "Hear O Israel: The Lord our God, the Lord is one; and thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength." Love God with every power he has given you.

The Greeks have two words for "love," whereas we have only one. The Greek word here used does not signify any sort of emotion. It implies an act of will, and is something which everyone can control if he chooses. It is possible for everyone to love God intensely in the sense of putting him first in all things. This "thou shalt love thy neighbor as thyself." There is none other commandment greater than these." The first commandment is given in Dt. 6: 4, 5, and the second in Lev. 19:18. Jesus brought them together, showed that one is the complement of the other.

With great conviction the scribe returned: "Of a truth, Teacher, thou has well said." The Greek word translated well means literally beautifully, and gives the idea of complete satisfaction with the reply. And then the scribe repeated Jesus' words: "He is one; and there is none other but he; and to love him with all the heart, and with all the understanding, and with all the strength, and to love his neighbor as himself, is much more than all whole burnt-offerings and sacrifices," that is, more than the whole Levitical ritual.

Jesus saw that the scribe had answered discreetly, that is, wisely, understandingly. His wisdom was shown, not only in accepting Jesus' answer, but in furthering the moral obligations are more important than forms of worship.

"Thou art not far from the Kingdom of God," then said Jesus. And no man after that dusk him any question. His enemies retired from the contest consciously defeated.

Charm Of A Library

Is In Possessing Books You Intend To Read Some Day

The collector of books need not fear the challenge that is sure to be made, sooner or later, by his skeptical acquaintances: "Have you read them all?" The first idea he ought to get out of his head is that he must only buy books for immediate reading.

"The charm of a library," said that devout book lover, the late Arnold Bennett, "is seriously impaired when one has read the whole or nearly the whole of its contents."

Bennett confessed that he had hundreds of books he had never opened, and which, perhaps, he never would open. But he would not part with them. He knew they were good, and as he gazed on them, he said to them, "Some day, if chance favors, your turn will come. Be patient!"

In some States across the line dealers accept farm produce in lieu of cash for professional services. One patient arrived with two achers and a cow.

Special knives are used for cutting rubber trees to allow the latex to flow. The knife punctures the tree bark to exactly the right depth.

Of the 312,897 governmental employees in England, 295,534 are men.

TOPICS OF VITAL INTEREST
by DR. J. W. S. McCULLOUGH

ARTICLE NO. 36

Does Trauma (Local Injury) Cause Cancer?

While there is a vast amount of evidence, both clinical and experimental, which demonstrates the causative relationship of mild and long-continued trauma to the production of cancer, there is comparatively little evidence to show that a single injury, such as a blow, acts as an exciting cause of cancer.

Every doctor has been questioned by a cancer victim as to whether or not the blow the person claimed to have received from the horn of a bullock, for example, was the cause of his cancer. In the absence of any evidence supporting this theory, the answer must be in the negative.

On the other hand there is plain evidence that a great variety of comparatively mild irritants, such as tobacco, soot, tar, certain lubricating oils, etc., will produce cancer in some persons. But recent experimental investigation has shown that in some, at least, of these irritants there is a specific cancer-producing agent. This agent in a few instances has been isolated.

Cancer attacks, on the average, one adult person out of every ten in a given community. This probably means that one of every ten is more susceptible than the other nine to this malady. The irritant which may be in operation in all of the ten affects only the one who is susceptible to cancer.

Moreover, the irritant to be effective in provoking cancer must be applied over a period of years. If tar is painted on the skin of a mouse daily for three months, almost inevitably the mouse will develop a cancer of the skin. Three months in a mouse's life means about 15 years in the life of a man, so 15 years and upwards is the interval required to provoke cancer in a susceptible person. The effect of a given irritant in causing cancer persists long after the irritant itself has been withdrawn.

No tumour has ever been experimentally produced in animals by a single injury. If a single trauma has been the exciting cause of a cancer in man, it must be very rare and in such a case one thinks that some pre-cancerous condition must have existed at the site of injury. The moral is "avoid irritants that may excite cancer."

Next article: Carcinogenic Agents.

Takes Second Place

America's Tallest Playright Much Shorter Than Circus Show

Leonard Lyons tells this story in the New York Post: Robert E. Sherwood, author of "Idiot's Delight," is the tallest playwright in America. Sherwood, who is almost 6 feet 7, tendered a party at his home and invited, among the guests over whom he'd tower, John Ringling North, head of the Ringling circus. "I hope you don't mind my bringing a friend along," North told the playwright. "I just want to prove that you've got the tallest man in show business." North then ushered in Jack Earle of the Ringling circus—who is 8 feet 4.

He Asked For It

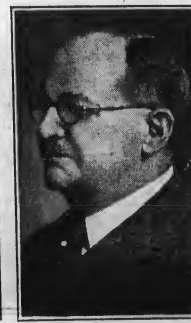

A blacksmith and a carpenter spent a day at the local sawmill. The carpenter gave a long talk on the various animals and their habits, until the blacksmith became extremely bored. Eventually they arrived at the monkey pen, and the carpenter, in a superior manner, asked the blacksmith if he knew what they were. "Well," replied the blacksmith, "judging by the sawdust on the floor they must be carpenters."

If we judge by human affairs, the bird with the worm often gets credit for having been early when it merely happened that the worm was late. Hearing, as a rule, is more acute with the right ear than with the left

CHRISTIE, BROWN AND COMPANY OFFICIALS

ALEX. A. FRASER

CHAS. E. EDMONDS

Local News

Mr. and Mrs. C. Furlong of Vauxhall spent the week-end at the home of Mrs. Furlong's parents, Mr. and Mrs. James Fairhurst.

Mr. and Mrs. Jack Graham of Edmonton left for Spokane on Tuesday evening after spending a few days the guests of Mr. and Mrs. Frank H. Graham.

The whist drive at St. Alban's parish hall on Tuesday evening proved very enjoyable and the prize-winners were Mrs. J. Richards, Mrs. Sam Howarth and the gents prizes were won by Steve Penny while Frank Barringham tied with Mrs. H. E. Gate, he winning by cutting the cards. The ladies served a very nice lunch at the conclusion of play.

Blairmore Leads in Telephone Connections

Though having the largest population of the towns of "The Pass," Coleman is far behind when it comes to telephones. It has 102 listed in the directory, Blairmore has 169. Practically every store and restaurant and other business places have telephones for general convenience.

Bellevue has 54, Hillcrest 28, Frank 10, Maple Leaf 8 and Passburg 1, making a total of 430 listed. There are quite a number of places in Coleman which would benefit from telephone service. Blairmore has approximately one telephone for every 12 people; Coleman has one for every 30 people.

Jempson To Play At Calgary

It would seem that no hockey executive can be sure of Jimmy Jempson's services until they have him dressed in a club uniform and on the ice. Coleman figured Jempson was a sure bet to play for them next season. Jimmy had other ideas however and travelled to Lethbridge where he was received with open arms by the Maple Leafs. A job was secured for him as a carpenter on the dance floor being constructed in the Lethbridge arena. That finished he looked for other pastures and a Calgary paper reports him returning to Calgary where he will line up with the city team next season.

THE POWER OF AN EIGHT WITH THE SAVINGS OF A SIX!

HERE ARE THE PERFORMANCE FACTS:

The exclusive Chevrolet Six Valve-in-Head engine develops its full 85 horsepower—without extra, gasoline-hungry cylinders! Recent road tests have again demonstrated this Valve-in-Head superiority. In these tests,* the 1938 Chevrolet out-performed the other cars in its class with faster hill-climbing—and faster acceleration through every speed range.

AND HERE ARE THE ECONOMY FACTS:

Owners report getting as high as 25 and 27 miles to the gallon of gas, consistently. They're unanimous in saying that the new Chevrolet saves them money on oil. And, as many point out, Chevrolet costs less than any other car for upkeep. BUT JUDGE FOR YOURSELF. Come to our showrooms, take the wheel, and let your own driving reactions tell you, "It's wise to choose the Chevrolet SIX for power plus economy."

*Your dealer will gladly show you the actual results of the tests. Ask him.
